

# Influenza B Monoclonal Antibody

|                          |                                                                                |
|--------------------------|--------------------------------------------------------------------------------|
| <b>Product Name</b>      | Influenza B Monoclonal Antibody.                                               |
| <b>Catalog number</b>    | S-1IFB2                                                                        |
| <b>Lot No.</b>           | [lot specific]                                                                 |
| <b>Immunogen</b>         | Influenza B virus                                                              |
| <b>Source</b>            | Mouse                                                                          |
| <b>Form</b>              | Liquid                                                                         |
| <b>Concentration</b>     | [lot specific]mg/ml                                                            |
| <b>Purification</b>      | Protein A chromatography                                                       |
| <b>Purity</b>            | >90% by SDS-PAGE                                                               |
| <b>Buffer</b>            | 0.01M PBS buffer, pH7.4                                                        |
| <b>Isotype</b>           | IgG                                                                            |
| <b>Applications</b>      | ELISA, LF                                                                      |
| <b>Assay Information</b> | Matched pair antibody available for Influenza B antibody: S-1IFB1<br>(Capture) |
| <b>Shelf life</b>        | 36 months                                                                      |
| <b>Storage</b>           | 2 - 8°C short term ; -20°C long term                                           |
| <b>Biohazard</b>         | There is no known biohazard associated with this product.                      |
